John Nunziata
Member of Parliament
York South - Weston

OTTAWA, May 22, 1991

Dear Minister,

I am writing in support of the report written by your department regarding environmental sensitivities.

As you are aware, the Allergy and Environmental Health Association believes that this report is a good first step in raising awareness about these types of problems.

I would like to encourage you to continue to promote the report and its recommendations during your tenure as the Minister of National Health and Welfare.

I appreciate your attention to this matter.

Yours sincerely,
